

New Medical Practice Opening in 20743

Global Vision Community Health Center is the first of five practices to open as part of the Prince George's County Health Enterprise Zone (HEZ). These practices will bring quality, affordable healthcare to the 20743 zip code, which currently has limited access to medical providers and serves more than 10,000 residents. The Health Enterprise Zone practices will provide individualized medical wellness plans for you and your family. HEZ also provides access to Community Health Workers that can assist with locating medical facilities, connecting with supportive services, and help with navigating through the healthcare enrollment system.

The Health Department strives to improve the wellness of all its residents, and HEZ is very committed to the health needs of residents in 20743. The HEZ Coalition was formed to oversee and carry out functions related to community efforts within the Zone. The Coalition is comprised of an executive from the Health Department, the mayors in the 20743 zip code, elected officials, and community partners. They are responsible for ensuring that the health care needs of the community are identified and addressed by HEZ.

Each month, HEZ meets with residents who live in 20743 as part of the Community Advisory Board (CAB). Residents present their needs, views, and concerns to the HEZ Coalition members and the Prince George's County Health Department staff. This allows residents to play an active role in shaping the Health Enterprise Zone to address their community's specific health needs. If you are interested in participating in the HEZ Community Advisory Board, please call (301) 883-7844.

Grant funding for the Prince George's County Health Enterprise Zone was provided by the State of Maryland, Department of Health and Mental Hygiene and the Maryland Community Health Resources Commission and will make it possible to expand and establish the five medical practices by 2016.
